SHRI KAPIL VERMA:

Will the Minister of INFORMATION AND BROADCASTING be pleased to state:

(a) whether Government had received in 1986 or 1987 a French proposal for an agreement for exchange of Radio frequencies between Monisinery (French Guyana) and Aligarh, which would have enabled All India Radio to broadcast to Indian community in Florida and California in U.S.A.; if so, the reasons for not agreeing to the proposal; and

(b) whether Government are aware that China had signed an agreement with France so that Beijing uses French transmitters to broadcast to U.S.A. and Radio France International relays from Beijing French broadcasts to India; if so, the details of arrangements being made for AIR broadcasts to U.S.A.?

THE MINISTER OF PARLIAMENTARY AFFAIRS AND MINISTER OF INFORMATION AND BROADCASTING (SHRI H. K. L. BHAGAT): (a) and (b) A proposal for providing time to the French Radio on All India Radio's Shortwave transmitters for their South-East Asian service, in exchange, for Radio France giving air-time on their Shortwave transmitters located in French Guyana, for a service which AIR might beam to the Americans was considered in 1986-87, but, the same could not be agreed to as AIR was not in a position to provide a 4-Hour slot which Radio France wanted.

Radio France International (RFI) and Radio Beijing formalised an agreement by exchange of letters on November 10, 1988. The agreement provides for exchange of transmission time and facilities for six hours daily between these two organisations. The broadcasting from the respective facilities commenced on November 10. The agreement is for a period of three years, automatically renewable unless either side gives advance notification for termination. We are informed that the agreement contains a clause which forbids the transmission of material that is adverse to either country.

Government has no immediate plan for introducing a service to the U.S.A. However, AIR is sending canned programmes to the ethnic stations and some broadcasting organisations of the USA and Canada, especially for the benefit of Indian community there
